Stuart M Murray
c/o Byron Bay West Landowners Association

13 December 2010

Dear Stuart,

Re: West Byron Mosquito Risk Assessment and Final Zoning Plan.

I have received and reviewed the received the draft zoning plan for the West Byron site and have incorporated commentary in the revised Mosquito Risk Assessment dated December 2010. It is my opinion that the mosquito risk posed to the West Byron site is not significantly greater than that of existing residential areas within the greater Byron Bay region. I am in agreement with the plan and believe that any nuisance-biting and/or public health risks associated with local mosquito populations can be minimized through building design and management of onsite water bodies.

If you wish to discuss any aspect of this letter, please contact me via email Cameron.webb@swahs.health.nsw.gov.au or during business hours on 02 9845 7548

Regards,

Cameron Webb
